Overview

1. About the company
2. Why to choose this company
3. About the project
4. Learning Outcome
5. Conclusion

About

- Kamtech Associates Private Limited is a technology based consultancy and solutions company
- Working across industry and business domains operating in emerging and mature economies like Africa, Europe, Middle East and Asia
- Two-time National Award winner (Government of India.)

Why choose this company?

- Kamtech Associates is an INDIAN company based in Jaipur.
- It mainly works on web automation.
- I got to work with high profile clients like KPMG and Accenture.
- Had a Python base.

About the Project

- BidFast
 - Automated Tender Proposal maker
 - Automated CV maker
 - CV Database
 - Tender Database

- EduBild
 - Automated Web MCQ Scraper
 - Automated MCQ Database generation

- Others

Learning Outcome

- Django
 - The current BidFast platform is based on Django
- Flask
 - Earlier it was based on Flask
- Selenium
 - Web Automation framework for controlling web-pages across browsers

Learning Outcome

- Jinja
 - Docx automation and testing framework using specified tags
- PyDocs
 - Docx generation and manipulation framework.
- BeautifulSoup 4
 - Webpage content modification and extraction

Conclusion

- Working at Kamtech was a bliss.
- Learned a lot about Django and how the web works
- Moreover Taught me the importance of :
 - team-work
 - time management
 - being open to ideas

THANK
YOU
